

BRIGHT FUTURES

PREPARING STUDENTS FOR A GLOBAL SOCIETY BY TEACHING ENGLISH LANGUAGE AND EMPLOYABILITY SKILLS

GLOBAL
SOCIAL
LEADERS

Bright Futures is an intensive multi-week English and employability skill development programme, designed to develop confidence in English speaking and an understanding of global citizenship. Our comprehensive programme will help students to become better communicators, creators, critical thinkers, and collaborators. Each week will have a practical, knowledge-based curriculum (drawing on the arts, geography, science, and social studies) delivered through varied excursions and enrichment activities which will put into practice their English speaking skills.

FOCUS

- General English language and speaking lessons
- Project based curriculum learning and excursions
- Developing employability skills with a focus on the Four Cs
- Understanding of global citizenship
- Exploring British culture and learning British sports

BACKGROUND

If today's students want to compete in this global society they must be proficient communicators, creators, critical thinkers, and collaborators (the "Four Cs"). Students need to master additional subject areas, including foreign languages, the arts, geography, science, and social studies. Educators must complement all of those subjects with the "Four Cs" to prepare young people for citizenship and the global workforce (Extract from research carried out by the National Education Association).

ENGLISH LEVEL

On the first day, we will carry out an assessment to allocate students to the suitable level for their current ability. Our courses are designed for students with a level of English IELTS 3.5 +.

FEATURES

- Access to excellent facilities – top sports, music and arts facilities
- A range of developmental enrichment activities
- Excursions to a seaside town and historical places of interest
- Live in a traditional British boarding school
- Certificate of participation
- Making new friends

We recommend attending for between two and four weeks (selected from our six week programme). For those participating in multiple weeks, they will have the opportunity to study a range of subjects and to experience a number of offsite excursions.
