EDUCATION FOR ALL

BETTER KNOWLEDGE, BETTER TOMORROW

.

Education is important for the personal, social and economic development of the nation. Education is important to live with happiness and prosperity. It empowers minds that will be able to conceive good thoughts and ideas. It enables everyone to do analysis while making life decisions.   It is for these reasons, we at JBCN International School, Borivali, took up this opportunity to be a part of the Global Social Leaders Competition, to educate the masses in most of the areas that one can think of and make them the responsible citizens of the world.

To begin with, therefore, we have involved ourselves in teaching English and providing computer literacy to the support staff of our school as it is believed that in this networked world Digital literacy is building character and learning two languages open the door so that people can face the challenges of life confidently.

Primary objectives:

- To provide 'Spoken English Education to the support staff of the school and through them reach the immediate neighbourhood who are in dire need of education.
- To provide computer education to the school support staff and make them self -reliant and increase the quality of life.
- To provide education about various safety and precautionary/preventive measures that needs to be followed by the General masses through 'Awareness drive' and reaching 500 to 1000 people at a stretch, and spread the knowledge through them affecting the society, at large.

Sustainable Development Goals:

Goal 3 : Good Health and Well-being

Ensuring healthy lives and promoting wellbeing for all at all ages is important to building prosperous societies. By providing basic English Language knowledge, we strive to bring out the well-being of our school support staff who will be able to reach to life's challenges confidently and in turn, help the society, at large.

Goal 4 : Quality Education

Education is the key that will allow many other Sustainable Development Goals (SDGs) to be achieved. When people are able to get quality education they can break from the cycle of poverty. Education therefore helps to reduce inequalities and to reach gender equality. It also empowers people everywhere to live more healthy and sustainable lives. Education is also crucial to fostering tolerance between people and contributes to more peaceful societies. So, our team members have not only provided the opportunity to learn English language but also are providing digital literacy to make confident netizens of the world.

All this to ensure happiness, well-being and prosperity!!!!!!!!!!!!!!

Highlights:

This project is focussed in providing Education for all, particularly to people who are in dire need of the same, from the immediate neighbourhood. They intend to do this through imparting Spoken English, Computer Education and rules and regulations to be followed by the citizens of the neighbourhood for the smooth functioning and overall progress of the neighbourhood and creating a positive ambience in the society, at large. They hope to find a way to make a better living conditions and create quality human resources for the progress of the nation and sustaining the world resources as a whole.

- We have been able to teach basic English language to the school support staff and have been successful in our endeavours
- We have imparted digital literacy to our support staff and have been able to guide them through the operations of networking so that they are able to fit in the main stream in today's fast networked world
