How does mindfulness benefit young people in the classroom and the school community?		
09:45					
10:00					
10:15	Indigenous peoples, women, and youth voices are often marginalized in decision-making processes on environmental matters, despite being among the groups most affected by environmental harm. This talk will explore the important contributions of these groups in achieving a future in harmony with nature, what we can learn from them, and how we can engage with them in our work toward a sustainable future	Inspired by HRH The Prince of Wales’s book <i>Harmony</i> , this new way of living provides a blueprint for a better way of living that focuses on sustainability, resilience and well-being. During the session, there will be opportunities to learn about and discuss these principles of Harmony and how they can be integrated into a new approach to education.

10:30		10:30 – Your talent for times like this <i>with Simon Wilsher, The Wilsher Group</i>	10:30 – ABA, Building Brands with Purpose <i>with Alistair Bullen</i> A session for education leaders which builds around the four principles of “people build brands”. It will help leaders create vision and initiatives for GSL in their schools.	
10:45		Discover what is unique about you that will enable you to lead social responsibility most naturally. Our C-me Colour profiling systems gives you a head start in life and clues to your preferred approach to any project such as social responsibility – what an honour at a times like this. We use examples of great benefactors such as Sir Richard Branson, Sir James Dyson, Bill Gates and Elon Musk.		
11:00	11:00 – Circular Economy: Redesigning Our Future <i>with Clémence Golinelli & Ilma Stankeviciute, Ellen MacArthur Foundation.</i>			
11:15				
11:30				
11:45	Today, many businesses operate in a linear way — they take resources from the ground to make products, which we use and then throw away. The circular economy offers a different way forward. It is a new approach to designing, making, and using things that benefits the economy, society, and the environment. In the webinar we will explore the origins of our current economy, discuss challenges such as waste and pollution, and learn how we can create long-term solutions to these challenges by shifting to a circular economy. We will look at real-life examples of ground-breaking innovation in key industries such as plastics, food, and fashion.			
12:00				12:00 – Making the Local Global <i>with Shona McCarthy, Edinburgh Festival Fringe Society</i>
12:15				

TIMES <small>BST</small>	GLOBAL ASSEMBLY	FUTURE ROOM	FOUNDATIONS ROOM	LIVE STREAM
12:30	12:30 – Making the Local Global <i>with Shona McCarthy, Edinburgh Festival Fringe Society</i>		12:30 – Know, Love and Inspire Your People <i>with Katy Granville-Chapman & Emmie Bidston, Wellington Coaching and Leadership Institute.</i> Emmie and Katy will bring you an optimistic view of what it means to lead and make a positive change in the world. A type of leadership that is accessible to everyone no matter what their role, background, age or education. They will show you how knowing, loving and inspiring your people can bring joy and fulfilment both to those you are privileged enough to lead and to yourself. Katy and Emmie will also give you lots of practical tools to use straight away to spread more happiness and wellbeing to those around you.	12:30 – A Green Recovery: Paying back our debt to the Planet <i>with Noga Levy-Rapoport, UK Student Climate Network</i> Climate activist and organise Noga discusses the systemic origins of the climate crisis and how this lays out a green path to rebuild fairly amid the global crises of both climate change and coronavirus.
12:45		12:45 – UK Student Climate Network Q&A <i>with Noga Levy-Rapoport, UK Student Climate Network</i>		12:45 – GSL Global Goals Competition 2019-20 Video Premiere
13:00	13:00 – Three small robots and their dream to save the world <i>with Ben Scott Robinson, Small Robot Company.</i> Farming is changing. The 'big' technology that has provided us with food since the Second World War has stopped increasing yields. Farmers are spending too much money on countering the damage done by large tractors and inaccurate per-field farming, while the yields they produce are static.			13:00 – Voicebox 'Our Journey' Hear from this amazing organisation dedicated to social change through drama. Learn how they use drama as a tool for social change & what workshops they offer for schools & similar institutions. They will then be diving straight into a live Q&A where you will get the chance to ask any further questions about all things Voicebox.
13:15		13:15 – Voicebox Q&A		
13:30	Welcome to the fourth agricultural revolution. Driven by technology that is intelligent precise... and Small. This is farming on a per-plant basis. Leading this revolution are three small robots called Tom, Dick and Harry, and their AI brain, Wilma. Together they are revolutionising the farming of the world's biggest crops in a way that is more profitable for farmers, kinder to the environment, and produces more food for us.		13:30 – Family Learning & Parental Engagement <i>with Susannah Chambers, Families Learning</i> A session for our parents & guardians and educators about the benefits of family learning.	
13:45		13:45 – Indigenous People and Sustainability <i>with Sonny Brayden White, Akwesasne Mohawk Nation</i>		
14:00				
14:15		A conversation about the role indigenous people have in building a sustainable future.	14:15 – "Be the change you want to see in the world" – all you need is grit & focus <i>with Janvi Patel, Halebury</i> From creating a pioneering NewLaw model that fundamentally changed the legal profession to using the legal system to create long term impact on equality, Janvi will talk about her experience and how grit and focus sees her through.
