Guidance on Writing Feedback

Thank you so much for offering your time to support this incredible competition. We are so inspired by all the great work these young people are doing and we hope you are too!

1. **Be positive** – frame points in a positive way.
2. **Focus on the goals** – make sure they are engaging with the Global Goals and setting their own!
3. **Record their learning** – record keeping is a good way for them to be able to see how much they are learning as well as helping them think about their impact!
4. **Signpost -** to organisations, resources and websites.

Key Areas to think about when writing the feedback:

1. **The Global Goal**
   a. What is the Global Goal they think their project relates to – mention why this is important. Are there other connections with different goals?
   b. Are they thinking about the goal?

2. **Goal: Aims and Objectives**
   a. Are they clear about the goal of their project?
   b. What are they hoping to achieve?
   c. Have they thought about assessing need?
   d. Have they set themselves clear targets? Refer to SMART.
   e. Do they have a timeline on when they want to achieve things?

e.g. Consider having SMART goals, so that you know exactly what small steps you're going to take (Specific) and you know what success in each of these small steps looks like (Measurable), ensure the steps are small enough to achieve (Achievable), ensure what you are doing is always relevant to your aims (Relevant) and put a time by which to have achieved each small step into your plan.

3. **Funding**

    a. Are they going beyond just fundraising?

    b. Can they extend their project by raising awareness?

    c. Have they looked at ways to engage the whole school?

        i. Challenges/Competitions – can other years be set challenges to support their project?

        ii. Key dates where the school participates

    d. Have they thought about sponsorship/Donations

4. **Measuring Impact**

    a. Are they keeping records?

        i. Photos, a journal, testimonials, surveys, this will really help them when writing their final submission report.

    b. Have they thought about what impact they want to have?

e.g. Be sure to keep good records of what you are doing. Take photos, collect comments, data etc. This will really help when it comes to your final submission.
