

"The theory of evolution, like the theory of gravity, is a scientific fact."

8/11/2021... the date holds such significance for us members of team impact. I still remember how this idea and our name came along. It all started when one of our parents started reminiscing about how when they were young, hostel going girls, the only options they had as part of the hidden curriculum was sewing and dance, while the boys had more interesting subjects to choose from, for example woodwork and stage arts. they commented on how these stereotypes, though still prevalent, were much less existent with the changing times. that's when it struck us. Encouraging love for different skills, and evolving with every new day, our mission was clear. That was the day project EVOLVe was born.

Our aims-

To provide a platform for young girls to recognize the potential they have through skill identification and hone these skills.

To provide opportunities to learn some of the basic life skills (cooking and sewing) for young boys which will help them to fulfill their daily necessities without parental help.

To be able to educate people on gender biases, and reduce inequality.

THE GLOBAL GOALS

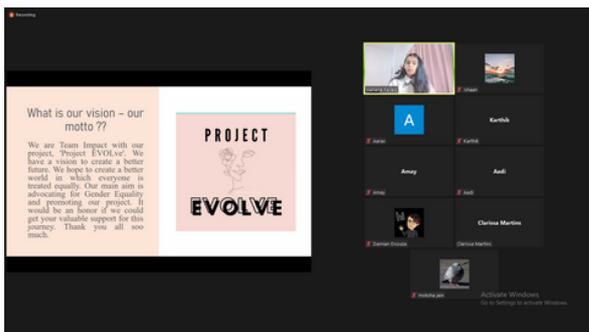

Webinars conducted

Our major work started in the month of March 2022 when we held webinars for boys aged 8-13 and taught them skills like cooking and sewing. We were greeted with great enthusiasm!

Experts

We had the honor of having Ms. Clarissa Martins joining us for the project, and conducting a cooking webinar alongside our members.

Our learning-

We have learnt several new skills that we will carry beyond our school years and can imbibe into our future careers, whatever we may choose to be. Skills such as event management, gathering resources, making graphics, socializing and networking, video editing and most important of all, time management were priceless take-aways from this experience. This has opened our eyes to a whole new world of innovation and opportunities and encouraged us to work for the betterment of humanity.

DID YOU KNOW?

- 88.7% of Stand up Comedians are Male
- Only 40% of men know how to sew.

STATISTICS-

- 160+ hours spent by each member
- 60+ Youtube subscribers
- 220+ Views on a video
- Participants from 2 different countries

Ms Clarissa's Feedback-

I thought it was a fantastic initiative and the participants we had were good and responsive too.

Participant Feedback-

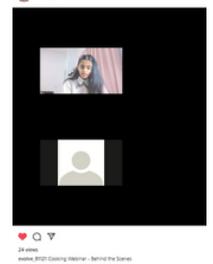

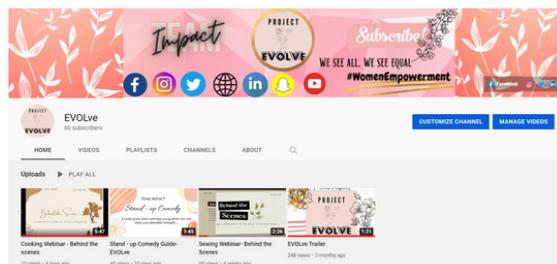

'After attending this webinar I understood the true importance of learning how to sew'

'Thanks to this video I am now able to write comedy scripts in a better and funnier way'.

'The cooking webinar was highly enjoyable and now, I am able to make a snack independently'

Social media work-

Our whole project was done digitally to ensure everyone's safety during the pandemic. We have uploaded videos on our Youtube channel, showcasing behind-the-scenes content, tutorials, an introduction to EVOLVE etc. We also held regular polls, asking our followers for their feedbacks and opinions and have been updating our Instagram and other social media constantly.

We humbly thank all our teachers, mentors, participants and volunteers for their love and support. Though we have a long way to go, in such a short period of time it would have been impossible to achieve this without you. Signing off, this is Team Impact. #WeSeeAll, WeSeeEqual!

Our Team- Dhriti Saraogi, Aahana Palled, Harsini Karthikeyan, Adrija Manoj
Our Mentors- Ms. Soumyamol, Ms. Indirapriya, Ms. Anitha
