To bring joy we make toys

## OUR PROJECT

OUR PROJECT WHICH STARTED AS A SEED OF AN IDEA HAS SUCCESSFULLY GERMINATED INTO A PLANT AND WE AIM TO NURTURE IT TO DEVELOP INTO A TREE. WE ARE PURSUING TO RECYCLE PAPER AND CREATE TOYS IN VARIOUS THEMES INCLUDING SCIENCE, MATHEMATICS, ENGLISH, ART AND SPORTS. FOR LARGE-SCALE PRODUCTION AND RECYCLING OF PAPER, WE HAVE SUCCESSFULLY DESIGNED A PROTOTYPE IN WHICH THE ENTIRE TOY MAKING PROCESS IS COVERED. ALONG WITH DECREASING PAPER WASTAGE, THIS WOULD ALSO EQUIP YOUNGSTERS TO BE CREATIVE. WE AIM TO CREATE AN EXPONENTIAL ACTION WITHIN OUR SCHOOL PREMISES AND LOCAL COMMUNITY.

## SKILLS IMPROVED

"TO MAKE YOUR SELF A HERO, CONVERT YOUR PAPER WASTAGE TO ZERO."  
-Athena Jaison

"EVERY PAPER TOY HAS A STORY BEHIND IT-THE COUNTLESS TIME AND EFFORT SPENT ON THEM."  
-Malakh Sharafuddin

"PUT YOUR IDEAS TOGETHER, PEN THEM DOWN ON A PAPER AND REWIND THEM- DO NOT LET THEM GO TO WASTE."  
-Afeefa Nooriya

"THE PAPER WE SAVE TODAY, WILL HELP US LIVE TOMORROW."  
Lipica Anoop

## OUR POINT OF VIEW

THROUGH THIS PROJECT, WE CAN PROUDLY STATE THAT WE ARE ONE AMONG THE MANY TEAMS WHO HAVE ENGINEERED A DIFFERENCE IN OUR WORLD.

- EVERY TOY WE MADE BROUGHT US CLOSER TO OUR GOAL; THEY WERE OUR STEPPING STONES THROUGHOUT THIS VENTURE FOR A MORE SUSTAINABLE WORLD.

- WE HAVE GIVEN OUR BEST TO COMMENCE A NEW AND ECO -FRIENDLY SOCIETY THAT PROTECTS OUR TENDER AND BELOVED PLANET TO HONOR ALL THAT IT PROVIDES US.

## SDG'S IN FOCUS

**CLIMATE ACTION**- ROTTING OF PAPER PRODUCES METHANE GAS. REDUCING METHANE EMISSIONS IS THE FASTEST WAY TO DECREASE GLOBAL WARMING.

**QUALITY EDUCATION**- EDUCATING OUR PEERS AND TEACHING THEM TO CREATE SUSTAINABLE TOYS PROMOTES QUALITY EDUCATION.

**LIFE ON LAND**- SAVING AND PLANTING TREES HELPS IN REVIVING THE HABITATS OF PLANTS AND ANIMAL SPECIES. WHILE CUTTING TREES WE ARE ALSO DESTROYING THE HOMES OF FLORAS AND FAUNAS .
