NEEDS ASSESSMENT

Project Name:

Project Outline:

What issue are you addressing as part of your project?

What research have you done around the issue that you are looking to address in your community? (this could include statistics from articles/reports, insights from interviews, surveys etc.)

What social factors are impacting the community you are looking to support?

1. Do the people you are working with have access to affordable education?
2. What health-related issues and trends are present in the community?
3. What role does the government play in the lives of the community?
4. Are they aware of the support that they can access concerning their wellbeing and health?

Who could you reach out to in the community to gain an insight into the issue you are looking to address?

1. Think about which organisations may directly tackle that issue or have networks that link to that issue.
2. Could your local council support in providing insights/data?
3. Could local universities/educational institutions provide you with research insights?
4. Would your local library be able to support with this?

How are you going to collect data to research further the issue that you are looking to address? (Interviews, surveys, events, reports etc.)
